Trauma Informed Structured Interview Questionnaires

By: Mary Ann Dutton, Krisztina Szabo, Rocio Molina, Maria Jose Fletcher, Mercedes V. Lorduy, Edna Yang, and Leslye Orloff

The National Immigrant Women’s Advocacy Project

The following questionnaires are provided to facilitate the Trauma Informed Structured Interview, which is the second part of the Trauma Informed Immigration Story Writing Intervention Method. During the story developing session, clients are encouraged to share their story uninterrupted while advocates and attorneys listen, take notes, and watch for triggers. This tool will aid advocates and attorneys in eliciting additional in-depth information to strengthen their client’s immigration case and will also provide a complete picture of trauma endured by survivors. The questions are designed to facilitate the client’s healing and to strengthen the client’s immigration application by uncovering important details of the story by screening for additional incidents. Attorneys and advocates should explain the goals of this session to the client before initiating the trauma informed structured interview.

While conducting the Trauma Informed Structured Interview, it is important to be mindful of the following:

- These questions should be administered by the advocate or attorney and are not intended to be used as a questionnaire(s) that clients fill out on their own.
- Clients should be told ahead of time that some of these questions are sensitive in nature and that they are not required to answer questions that make them uncomfortable. The advocate or attorney may want to tailor the questions to the client’s ability to understand the question. (i.e. education and cognitive understanding)
- Use this tool in conjunction with crisis intervention techniques and be mindful of your own self-care needs during this and all other sessions.
- Allow time for breaks and “check-ins” with your client.

STRUCTURED INTERVIEW QUESTIONS FOR VAWA SELF-PETITION
